

Отчёт о посещаемости сайта

amez.petrstu.ru

с методическими материалами астрономической обсерватории ПетрГУ за 2018 год.

- 1) При анализе на компьютере был прописан только один, первый университетский DNS сервер 193.232.254.218
- 2) База по организациям не подключалась, а в программу были вручную введены все сети Петрозаводска (по ПетрГУ более подробно, с более мелким делением, а по остальным провайдерам – более крупно). Смотрите страницу 70
- 3) Также сделана отдельная таблица по сетям всего Северо-Западного Телекома, так как на стыке ПетрГУ-Онего применяется BGP маршрутизация и маршрут через этот стык идёт не только к Петрозаводским сетям Онего, а ко всему Северо-Западному Телекому. Смотрите страницу 71
(Примечание: данные приведены за весь год, но надо иметь ввиду, что летом 2018 года пиринг Онего с ПетрГУ был расторгнут. Начиная со следующего, 2019 года эта таблица больше делаться не будет).
- 4) Роботы НЕ считались за посетителей.
- 5) В конце отчёта приведены посетители наиболее интересных страниц сайта, таких как index_msgs.htm и index_msgs_max.htm. Смотрите страницу 246
